STEELE'S REMOVALS - CUMBRIA'S MOST PROFESSIONAL REMOVAL COMPANY

We would like to introduce you to Steel's Removals and the professional services and facilities we have at your disposal.

If you are moving home or putting your belongings into storage then you have come to the right place. Steel's Removals can handle anything from a single item to the contents of a large stately home, your worldly possessions are treated with the greatest of care and respect whether you are moving locally or to the other side of the globe.

We realise that moving house can be a most stressful event, however by leaving it to the professionals you can rest assured that your move is in safe hands. Steel's Removals are proud to be members of the British Association of Removers which means we belong to an elite group and have to adhere to their strict code of practice, this means that our standards are amongst the highest in the world, we are inspected regularly to ensure this standard remains high.

We run a large modern fleet of vehicles to complement the First Class Service our trained staff provide. We are equipped to carry out any removal regardless of location or destination. Whilst carrying out your removal we are quite willing to drop items at several addresses and may not be as expensive as you think.

Your sofas, armchairs, mattresses, carpets, doorways, banisters etc., are all protected with tailor made coverings throughout the move.

Should you need to move your belongings into store you can be assured that we have the best secure furniture storage facilities in Cumbria. Your home contents are skillfully and carefully packed into your own exclusive containers (an average household would probably require 3 to 4 containers), we carefully label, inventory and pack everything into each container. Our normal practice is to bring the empty containers to your house using our specialist vehicles, once packed they are unloaded by fork truck at our depot and carefully stowed away into our new purpose built, heated, alarmed warehouses equipped with CCTV.

We offer a first class door to door shipping and air freight service, your larger effects are all individually wrapped into protective packaging and stronger export grade cartons are used for your fragile goods. At your destination we use only reputable, approved companies with an equivalent standard to ours to handle and re-deliver your effects so you can rest assured your belongings arrive on time and intact.

All our staff are professionally trained and derive satisfaction from ensuring that your move is a pleasure from your very first phone call until you close the front door on your new home.
